THANK YOU, FEDERAL CONTRACTORS!

5

FOR:

- ❖ Responding to Sources Sought Notices
- ❖ Submitting Bids and Proposals
- ❖ Providing Feedback
- ❖ Providing Technical Expertise
- ❖ Saving the US Taxpayer Money and Time
- ❖ Completing projects Safely
- ❖ Being a Collaborative Partner

We understand the effort and resources required to engage in the federal contracting process, and we are grateful for your continued support. Together, we are building strong foundations for future success.

Thank you for your contributions and for choosing to work with the Charleston District. We look forward to continuing this journey of excellence with you.

PROJECTS WHERE YOU SHOWED UP!

6

We rely heavily upon competition – thank you for supporting these acquisitions:

- ❖ **Fort Jackson Reception Complex Phase 2**
 - ✓ \$156M – 4 Contractors Participated (OTSB)
- ❖ **DDSP Electrical Upgrades - 8(a) Action**
 - ✓ \$57M – 7 SB Contractors participated
- ❖ **SB Building Envelope MATOC**
 - ✓ \$99M – 4 SB Contractors Awarded
- ❖ **SDVOSB Construction MATOC**
 - ✓ \$99M – 5 SDVOSB Contractors Awarded
- ❖ **81st Program Awarded Actions**
 - ✓ NC115 HVAC Controls Replacement - Received 12+ bids - Award amount: \$435,000
 - ✓ FL040 Chiller Replacement - Received 5 bids - Award amount: \$350,000
 - ✓ FL127 / FL037 Plumbing and Window Replacement - Sole Source 8a
Award Amount: \$1.3 million
- ❖ **DB Fire Protection MATOC – SB Set-Aside**
 - ✓ \$49M – 4 SB Contractors Awarded
- ❖ **UPCOMING**
 - ✓ **\$20M A-E Design Services SDVOSB***
 - ✓ **\$99M A-E Design Services Unrestricted***
 - ✓ \$99M DB/DBB SDVOSB MATOC East
 - ✓ \$99M DB/DBB SDVOSB MATOC West

USACE CHARLESTON DISTRICT

2024 FISCAL YEAR IN REVIEW

In Fiscal Year 2024, the Charleston District continued to deliver critical infrastructure projects that support national defense, environmental sustainability and economic development. Working with federal, state and local partners, we enhanced coastal protection, improved navigational channels, and supported disaster response efforts, ensuring resilience in the face of emerging challenges.

MYTH-BUSTING CPARS

27

Myths About CPARS (Contractor Performance Assessment Reporting System)

Myth: CPARS is only used to document negative performance.

Fact: CPARS captures both positive and negative performance, providing a balanced view of a contractor's achievements and challenges.

Myth: Contractors have no way to respond to a CPARS assessment.

Fact: Contractors can and should provide comments or rebuttals within the designated time frame if they disagree with the assessment or wish to provide additional context.

Myth: A single poor CPARS evaluation will disqualify a contractor from future awards.

Fact: While CPARS is a critical tool, contracting officers consider a range of factors, including the overall performance record and specific project circumstances.

Myth: CPARS ratings are subjective and lack standards.

Fact: CPARS evaluations are based on specific criteria, such as quality, schedule adherence, and cost control, ensuring a standardized process.

SUGGESTIONS TO IMPROVE

28

You Told Us:

- ❖ You want feedback from Sources Sought Notices.

We Are:

- ❖ Working with our Contracting Officers to provide feedback via SAM.gov

You Told Us:

- ❖ You want less restrictive solicitations so more small businesses have an opportunity to propose on our actions

We Are:

- ❖ Taking a closer look at our solicitations and responses from contractors to try to be as inclusive as possible. It is important to provide feedback during the solicitation phase so we can take action, if possible.

CHARLESTON DISTRICT TAKE AWAYS

Best Practices for Those Who Want to Work With Us

- ❖ Read and respond to our sources sought notices in accordance with the announcement. Contracting can make the best procurement decisions when provided with requested information.
- ❖ Reach out to our Small Business Professional for a Capabilities Briefing - but do your research! Review our current projections/upcoming projects and see what may interest you and be prepared to speak about it.
- ❖ If you feel as if you are a good fit to do the work that we have out on solicitation but realize your proposal would be unsuccessful because you can't meet the criteria for things like past performance or past experience, reach out to the Contracting Officer or submit a RFI through the means identified in the solicitation. Sometimes we are more restrictive than we realize, we don't know that until you tell us!
- ❖ Check out our new USACE Headquarters Doing Business Page! It is packed with amazing information to help Construction Contractors! <https://www.usace.army.mil/Business-With-Us/Partnering/>

USACE MAP OF CIVIL WORKS DIRECTORATE SUPPLEMENTAL PROGRAM

Presenter Notes
2025-03-28 00:42:08

7

The Civil Works Directorate Supplemental Program is a \$44 Billion dollar program spread across five major appropriations that delivers infrastructure across all our mission areas. The missions' areas include flood risk management, navigation, and ecosystem restoration. You can select the link located below to view the thousands of supplemental projects our teams are delivering across the nation. Viewers can filter projects by location, Congressional District, public law, and project name. By clicking on the location marker or the “More Info” button a user can also view upcoming project milestones, project descriptions and a link to learn even more about the project, or the district delivering the project. The map is an evolving tool, and you are encouraged to explore its features and your suggestive improvements submitted to the development team are welcomed.

To access the map, click [HERE](#). Or click on the icon below.

For more about the supplemental program's implementation guidance and examples of successes to date, click [HERE](#).

PROGRAM TRENDS & OBSERVATIONS

Presenter Notes
2025-03-28 00:42:08

8

Unprecedented times for USACE ... \$90B portfolio, workforce sized for \$30-35B portfolio

- Strong MILCON & Civil Works appropriations support
- Aging Civil Works Infrastructure – Demopolis lock & others
- Other Federal agencies seeking USACE expertise

Industry Feedback/Proposal Observations

- Impact of inflation, labor, material and global supply chains...30% price increase, lead times for key items, willingness to hold pricing
- Project Labor Agreement (PLA) requirements for construction contracts > \$35M

Growth Opportunities & Locations in Mobile District

- MILCON – MacDill (KC46 & SOCOM), Columbus (T7 Fielding), Redstone (Space & Missile), Eglin, Patrick (Space Port of Future), Anniston Army Depot (Army Organic Industrial Base)
- Defense Health Agency – new market sectors and locations
- Environmental – AFFF, PFOS/PFOA, Optimized Remediation Contracts
- Civil Works – Coastal Resiliency, Design work for BIL and WRDA authorizations
- LATAM – Water Resource study-like efforts (Panama, Honduras)
- Interagency – Veterans Administration, NASA, Homeland Security

Key Acquisition Needs for FYs 24/25

- Construction Contracts
- Replenish AE Capacity
- Defense Health Agency D-B and O&M
- Environmental
- Construction Management Services

|---------------------|---|--------|---------------|--------------|-------------------------------|-----------------------------|
| W91278-23-R-0154 | The U.S. Army Corps of Engineers, Mobile District, anticipates design and construction of approximately 5,500 sf replacement Working Dog Treatment Facility supporting military working dogs. The replacement Working Dog Treatment Facility will provide complete, preventive, diagnostic, dental and surgical care for Military Working Dogs (MWD). With clinical flow to accommodate modern veterinary practices. Supporting facilities include utilities, site improvements, parking, signage, antiterrorism force protection measures, demolition, and environmental protection measures. | 236220 | Full and Open | \$5M - \$10M | Feb-24 | Oct-24 |
| W91278-23-R-0141 | Mobile District is seeking a contractor for the Nanofiltration Water Treatment Plant project located in in Gautier, MS. The project is the construction of the Nanofiltration Water Treatment Plant housed within a new building on a new concrete pad adjacent to the City of Gautier's existing Ion Exchange Plant. The contractor will install underground piping, construct the building enclosure and the concrete pad, construct the clean-in-place system, and install the sodium hypochlorite system (disinfection) and the electrical components necessary to run the Nanofiltration plant. | 237110 | Full and Open | \$1M - \$5M | Dec-23 | Sept-25 |
| W91278-24-R-0057 | The USACE is seeking a contractor for a design-bid-build construction for the Replace portions of the existing north apron and perimeter taxi lane pavement with PCC pavement. On north apron, add 0.4M (15 inches) rigid pavement over base and asphalt shoulder to north apron to accommodate required KC-46A taxi and parking wingtip clearances. Also on north apron, alter existing asphalt to 0.4M (15 inches) rigid pavement over base. Work also includes installing aircraft hydrant fueling pits as well as associated fuel infrastructure, to include pump house modifications, to support 15 KC-46A aircraft parking spots. The project includes pavement striping, installation of 2 nose gear mooring points, airfield lighting, communication infrastructure relocation and all other supporting work necessary to make a complete and useable facility. The location is KC-46A ADAL Apron & Hydrant Fueling Pits MacDill Air Force Base, Florida. | 237310 | Full and Open | \$50M-\$100M | August-24 | March-27 |

| W91278-25-R-0036 | The U.S. Army Corps of Engineers, Mobile District is seeking a contractor who can construct a facility for Long Range Standoff (LRSO) and Air Force Global Strike Command (AFGSC). This facility will provide multiple laboratory and administrative spaces to conduct hardware and software research and development, testing, evaluation and validation of LRSO advanced subsystems. This laboratory is essential to providing hardware validation and software certification for LRSO advanced subsystems for immediate and future fielding to the warfighter. | 236220 | Small Disadvantage Business Set-Aside | <\$30M | April-25 | May-27 |
| W91278-24-R-0130 | The U.S. Army Corps of Engineers, Mobile District, anticipates future procurements to design and construct various types of facilities in support of its military and Interagency construction programs to services at locations within its Area of Responsibility (AOR) which includes Alabama, Mississippi, and Florida This IDIQ will be established in Five regions. Engineering Research Development Center (ERDC), Vicksburg, MS; South Alabama Area Office, Anniston, Army Depot, AL; and Gulf Coast Area Office, Eglin, AFB, FL. Construction under the SATOCs could include all types of armed services, Army, Air Force and interagency partners' facilities for medical, administration, vehicle maintenance, training, flightline, dormitory, access control, repair shops, and warehouses. Task Orders under the SATOCs will be advertised as both Design-Bid-Build and Design-Build projects and the location is Engineering Research Development Center (ERDC). | 236220 | HUBZone Competitive Set-Aside | <\$100M | Apr-25 | Apr-30 |
| W91278-24-R-0131 | Advance Notice: This project is a Best Value, two-phase design-build solicitation. A detailed project description and overall project performance requirements for this project will be included in the Request For Proposals (RFP) package. The solicitation criteria relies upon industry standards, where allowable, to afford the offeror a degree of design flexibility while meeting certain specific project requirements. The successful Contractor must design and construct complete and usable facilities, as described in the RFP documents. One solicitation will be issued covering both phases. Proposals will be evaluated in Phase One to determine which offerors will submit proposals for Phase Two, and an amendment will be issued to those selected offerors. Selection of offerors for involvement in Phase Two will be based on technical approach and performance capability. Detailed project design requirements will then be added by amendment to the solicitation at the start of the Phase Two stage of the Request For Proposals. A limited number of firms will be invited to participate in the second phase. | 236220 | SDVOSB Sole Source | >25M&<100 M | TBD | tBD |

| Solicitation Number | Project Description | NAICS | Set Aside | Value | Estimated Contract Award Date | Estimated Contract End Date |
|---------------------|--|--------|---------------------|-------------|-------------------------------|-----------------------------|
| W91278-24-R-0079 | The contractor will construct a new, two-lane paved bypass road along the northern boundary of existing test area (TA), range D-51 at Eglin Air Force Base. The new road will intersect Range Road 218 at the southwest and northeast corners. The bypass road will be constructed outside of the controlled perimeter north of the range boundary. Construction will include land clearing and grubbing, rough and finish grading, earthwork, fill and compaction, drainage ditches, concrete culverts, hydro-seeding, new asphaltic concrete pavement, striping, signage, reflective pavement markers, and best management practices. | 237310 | 8(a) Competitive | \$5M -\$10M | Oct-24 | Apr-25 |
| W91278-25-R-0011 | The Mobile District completed its contractor's small business marketing evaluation, and the District is intending on placing an 8(a) contract with SBA North Florida District Office to provide the following scope of work: The Contractor shall furnish all plant, labor, materials, and equipment to perform all work in strict accordance with these specifications and Task Orders. The Contractor may be required to meet compressed schedules to deal with emergency or urgent requirements. Facilities will be identified in each Task Order. Work will vary from site to site and will require extensive knowledge of the functional operation relating to the efficient use of the facility, equipment, and facility support systems (utilities, Anti-Terrorism/Force Protection measures, parking) and building structures. | 236220 | 8(a) SATOC | \$4.5M | Mar-25 | Mar-28 |
| W91278-25-R-0002 | Deerlick Campground Waterline Replacement Tuscaloosa, AL. Deerlick Creek Park offers 48 sites, including 6 tent-only sites, all with electric and water service. Amenities include flush toilets, showers, drinking water, a dump station, beach, picnic shelter and boat ramp. The existing water service system at Deerlick Creek Park has reached the end of its useful life and requires replacement. The objective of this project is for the contractor to provide all labor, materials, and equipment necessary to replace the water distribution loop, campsite services, and appurtenances as described in this SOW at Deerlick Creek Park, Tuscaloosa, Alabama. | 237110 | 8(a) Competitive | \$1M -\$5M | Dec-24 | Aug-25 |

ON GOING MARKET RESEARCH

| Project Title | Project Description | NAICS | Location | Estimated Value |
|---------------------------------|---|--------|--|-----------------|
| Shock Applied Impact Laboratory | Seeking Small Business Contractors to perform Laboratory projects involving 6,000 square foot 1-story facilities w/concrete foundations, pre-engineered steel frame structural systems, insulated metal panel system, metal stud w/gypsum wall board walls, sloped metal roof system with insulation, and interior utilities (elect, fire suppression, plumbing and HVAC) to house firing instrument equipment for indoor experiments in high bay, control/office, unisex restrooms, lapping room, build room, mezzanine storage area, and communication area. Site improvements include landscaping, pavement, retention ponds, extended utilities, and all necessary support. | 236220 | Eglin, AFB | \$2.5M - \$7.5M |
| Defense Health Agency Program | Seeking Small Business Contractors able to perform O&M and Repairs within MEDCOM Program. The contractors must have a thorough understanding of and experience in complying with current codes and standards established by applicable accrediting Authorities Having Jurisdiction (AHJ) and The Joint Commission (TJC), the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC), as well as other applicable industry medical codes and standards governing the operation of a medical facilities and laboratories published by the National Fire Protection Association (NFPA). Small business contractors should be able to meet special requirements within a demanding work environment and willing to take risks performing work that may impact patient health and safety standards in exposing their own workers to toxins or infectious diseases. Extensive knowledge of functional operations of laboratory facilities and related equipment, facility support systems, and building structures associated with the facilities described within the MEDCOM program. | 236220 | Various Locations Throughout the U.S. And Pacific Region | TBD |

ON GOING MARKET RESEARCH

| Project Title | Project Description | NAICS | Location | Estimated Value |
|-------------------------------|---|--------|--|-----------------|
| Dredging | The U.S. Army Corps of Engineers, Mobile District, anticipates several dredging acquisitions during the future years. The USACE is seeking Small Business Contractors able to perform maintenance dredging of local and neighbor states inland river systems, coastal harbor rivers, and bays. Future acquisitions also involves rental and / or unit price dredging equipment for different size categories of dredges and for different types of dredges. The required minimum pump discharged diameters will be between 24” and 30” inches, measured from the inside diameter of the discharge side of the main dredge pump. The minimum horsepower applied to the main pump of 2400 / 5000 hp respectively. Additional requirement will be for trailing suction hopper dredges with a minimum hopper capacity of 3600 cubic yards. Small Business Contractors must manage a crew or staff and provide support equipment; such as, pipelines, booster pumps, tugs, tangle chains, and various floating plants, or other related supply items that would normally be expected to support dredging operations. | 237990 | Various Locations | \$2.5M - \$245M |
| Disposal of Dredging Material | The U.S. Army Corps of Engineers, Mobile District is seeking Small Business Contractors who can perform work consisting of dike raising, excavation, leveling, and stacking material, hauling out dried material, dewatering ditches, and constructing and installing weirs. Additional work includes constructing earthen berms in coastal waters, transporting material to coastal waters for marsh construction, construction of rock levees, and re-establishing small channels by snagging or mechanical/hydraulic dredging. | 237990 | Alabama along the Black Warrior Tombigbee Waterway and the Alabama River Lakes Waterway. | \$45M - \$50M |

First Impressions – Capability Briefing

106

- First Impressions and The Value of Time:
 - Don't waste an opportunity to make a favorable impression!
 - Don't waste the Contracting Official's time.
 - Know the customer's mission and something about their buying habits.
 - Where possible provide a well-designed capability statement (2-3 Pages)
 - Tailor your presentation based on the customers needs.
 - Discuss relevant topics during the presentation.
- Don't confuse the government agency's roles – The SBA/APEX should help prepare you for event; not the Contracting Officer!
- When you appear before the Contracting Officer or Gov't Official – Their response: Welcome to the big league; show me your skills please!
